Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Pending Claims

Claims 1-11 are pending.

Priority

1. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 09/920,149, filed on August 1, 2001.

Claim Objections

2. Claims 1-11 are objected to because of the following informalities:
 - In line 3 of claim 1, the phrase --said coating-- should be inserted before “including”.
 - In claim 9, it appears that “MESCH” should be replaced with --mesh--.Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claim 9 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described

Art Unit: 1712

in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

There is nothing in the specification (instantly or previously filed) that supports the limitations set forth in claim 9. Specifically, there is no mention of the chemical formula (equation) $\text{SiO}_2 + 3\text{C} = \text{SiC} + 2\text{CO}$. It is unclear how this is related to the mixture of carbon and corundum (aluminum oxide).

6. Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is unclear what the term "poli-sulfuric polymer" is referring to. This term is not conventionally used in the art. It appears that it could be referring to a polysulfonate or possibly a polysulfide; however, such detail cannot be determined with the instant disclosure. In the specification, Applicant discloses a trade name TEXOS B210W®; however, the Examiner was unable to attain information on this product.

It is unclear how the chemical formula (equation) $\text{SiO}_2 + 3\text{C} = \text{SiC} + 2\text{CO}$ is related to the mixture of carbon and corundum (aluminum oxide).
